Disclaimer :

- The "Delivery" or "Transit" norms denote number of days taken from the date of booking to the date of delivery for a Speed Post article.
- The specific norms for 87 cities shown in the "delivery norms/transit time calculator" are applicable only within municipal limits of these cities. "Local" articles refer to the articles booked and to be delivered within the municipal limits of a city/town.
- They do not apply to the articles booked after the cut off time on a day (normally 3 or 4 pm for booking counters at post offices) and an extra day may be added in such cases.
- The delivery norms do not include Sundays and holidays.
- Delay occurring due to curfew, bandh or strike in a particular city may adversely affect delivery norms.
- Delay occurring due to cancellation of flights/trains/buses/other means of transport for carriage of mail or off-loading/non-carriage of mail by the carriers due to any reason is beyond the control of the Department, and therefore, the same may adversely affect delivery norms
